

Spectacular salads all year round

Suveræne salater året rundt

by Tina Scheftelowitz

Tina Scheftelowitz invented the concept of Spectacular Salads 15 years ago, together with Sonja Bock. Together they made Danes eat more vegetables years before it became hip to do so. Their popular *Spectacular Salads*-books have sold hundreds of thousands copies, and along with their other cookbooks have been such an inspiration that their fantastic recipes have become classics in many Danish homes.

Just as new exciting products keep on being introduced, a steadily increasing awareness of the benefits of eating in accordance with the seasons and eating more vegetables is growing.

With her 90 new spectacular and easy recipes Tina puts Scandinavian vegetables and fruits to the forefront – without excluding all the goodness that comes from abroad, such as aubergine or mango. She emphasises which vegetables are at their ripest and most flavourful for each season, and makes it easy for you to remember.
